Objective

Work as a Full Stack Developer, contributing to efficient and scalable solutions in web and mobile applications, applying my technical skills and experience in practical projects.

Experience & Projects

- GitHub Contributions: development and maintenance of personal and academic projects, focused on web applications, RESTful APIs, and relational databases.
- Study Projects:
 - TurboX – Automotive tuning simulator (Node.js, PostgreSQL, React).
 - Personal Portfolio – Responsive website with animations and dark design.
 - Rick and Morty API – Data consumption and display with Next.js.

Education

- High School Diploma – [school name], [year of completion]
- Technical Degree in Systems Development – SENAI (2024 – ongoing)
- Computer Science Course – SENAI (completed)
- Game Design – SENAI (completed)

Technical Skills

- Languages & Frameworks: HTML, CSS, JavaScript, React, Node.js, Next.js
- Databases: PostgreSQL (relational)
- Tools: VS Code, Postman, GitLab, GitHub, Figma, Bootstrap
- Methodologies: Git version control, RESTful APIs

Soft Skills

- Clear communication
- Teamwork
- Adaptability
- Continuous learning mindset
